
HOW TO CLEAN A WHITE BOARD?

Cleaning a white board is not an easy task, especially when there is ink on it from a long period of time. When a person cleans the dry erase board properly and with a good quality eraser, it tends to look new and thus becomes very easy and convenient to read.

The white boards that are used on daily basis often contain colors or lines are not easily removed. Good quality soaps or chemical solutions can help to remove the stains and marks on the white board surface.

STEP 1

Rewrite over the marks or stains with a new whiteboard marker:

Do not use a permanent whiteboard marker otherwise they will leave lasting marks on your dry erase board which won't be easy to remove. Even the marks that are left on your board for a long time can be very difficult to remove. In order to remove the stains, rewrite on the marks using a new white board marker.

.

STEP 2

Let the marker dry:

This might not take more than two to three seconds. Then rub those stains with the help of wet cloth or whiteboard eraser. The fresh ink of whiteboard marker will help to remove the stains easily and quickly.

STEP 3

Repeat this step of required:

For the permanent stains and marks, you can repeat the above step in order to get rid of them permanently. Put dry erase ink on the stains, let them dry for 5 seconds and then clean it off with the help of cloth or white more erasers.

STEP 4

Clean the board using a wet cloth:

After you have followed the above steps and have gotten rid of permanent stains, the next step you need to follow in order to make your white board look new is, to clean it with wet cloth.

Make the cloth wet by dipping it into solutions such as isopropyl alcohol, water mixed with dish soaps or washing powder, hand sanitizer or nail polish remover. These are some of the best solutions that can help to get rid of unnecessary stains and marks.

However, one must pick those solutions that are of best quality; they might be a bit expensive but would be worth it.

PART 2: CLEANING ON A DAILY BASIS:

Clean your whiteboard everyday:

To get rid of the permanent marks, one must clean his or her whiteboard on daily basis. Use a whiteboard eraser to remove a number of fresh marks. If you don't have a white board eraser, then you can use a cloth as well in order to clean your board.

Make use of wet solution to clean your whiteboard:

Dip a piece of cloth of sponge in the cleaning solution of your choice. Then rub this particular cloth or sponge on your white board. Do this step daily to make your whiteboard look new.

Dry your whiteboard:

Once the stains or marks have been successfully removed, wipe the board using a damp cloth. This will remove the cleaning solution that still might present on the board. Then dry the whiteboard with dry cloth.
